

27th June 2018

Dear parents/guardians

Year 8 Science Activity Day on Wednesday, 11th July

I am delighted to inform you that all of year 8 will be off timetable to spend a day on fun and challenging activities, which will increase awareness of careers that are available in science. Your daughter will do 6 activities in rotation.

The science department are confident that this day will be inspiring and informative. However, due to the high cost of bringing in one of the activities "Animals About" into school and the fact that school budgets are very restricted, **we are asking for a voluntary contribution of £5 towards the cost of the day.** Please make payment using your Wisepay account. Please note that if insufficient voluntary contributions are received then we may have to replace the animal activities with alternatives.

Please do not hesitate to contact me should you have any queries about the day,

Yours faithfully,

Ms M Walsh
Head of Biology
